# U/NITE Coverlet

With PrimaLoft Technology

P/Kaufmann Contract is thrilled to introduce an industry first for the guest bed. Our U/NITE Coverlet combines the tactile appeal of a quilt, the durable performance of a top sheet, and the latest advances in thermal technology to offer an all-in-one solution for top of bed.

We have partnered with PrimaLoft, the industry leader in insulation technology to produce a coverlet featuring 100% recycled fill that enables lightweight warmth, breathability, and durability.

U/NITE offers a revolutionary alternative to bulky, labor-intensive top of bed products. This elegant, practical solution represents the future of hospitality: clean, simple, sustainable comfort.

Integrates the functions of Coverlet/Blanket, Duvet/Insert, or Triple Sheet/Blanket

Quick turnaround for housekeeping

100% of top of bed can be laundered after each guest

Wrinkle resistant

# PrimaLoft is The Luxury Down Alternative™

PrimaLoft® Insulation enables comfort and rest by taking the same innovative materials that power high-performance insulation for apparel and tailoring them for bedding.

PrimaLoft® Insulation

PrimaLoft® Fibers

## Advanced Thermal Technology

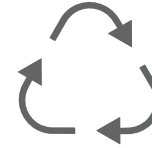

A proprietary blend of microfibers creates more air pockets, efficiently trapping heat for superior thermal performance.

## Versatile Comfort

Fine-denier fibers produced with PrimaLoft's proprietary finish and manufacturing process make PrimaLoft® insulation ultra-soft and warm.

PrimaLoft® Gold Insulation provides advanced thermal technology and a variety of comfort & efficiency benefits.

100% Post-Consumer Recycled PrimaLoft® Fill

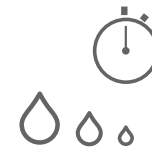

Engineered for warmth without bulk

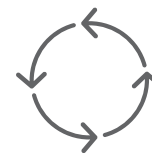

Durable to frequent washing

Lightweight, breathable & hypoallergenic

Fast drying for efficient laundering

Four-season use

# PRIMALOFT SUSTAINABILITY FEATURES

✓ Divert bottles from marine environments and landfills

✓ Clean, shred, melt, and transform into PrimaLoft® fibers

✓ Create PrimaLoft® insulation, The Luxury Down Alternative™

✓ Deliver U/NITE Coverlet, the all-in-one solution for top of bed

## From Bottle to Fiber

To produce the insulation powering the U/NITE Coverlet, PrimaLoft transforms post-consumer recycled plastic water bottles into high performance fibers.

## Felt by the Planet

The PrimaLoft insulation powering the U/NITE Coverlet is made from 100% post-consumer recycled content. So it gives you and the earth a rest.

## PrimaLoft Believes

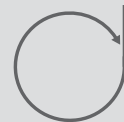

PrimaLoft believes premium performance does not need to come at the expense of the planet. PrimaLoft engineers are in the lab developing revolutionary technologies that also reduce their impact on the earth.

✓ 26,919,000 post-consumer recycled bottles diverted\*

✓ 76% CO2 reduction from sustainable sourcing\*

✓ PrimaLoft® Gold insulation is circular enabled

\*Projected figures are based on a program of 3,000 hotels with 2M meters of PrimaLoft insulation. The carbon footprint calculations are only associated with the polyester content conversion from virgin to post-consumer recycled polyester. Polyester footprint values obtained from Higg Index Material Sustainability Index.
